

# Furkan Ceylan

UX/UI Designer

## PROFILE

01

Creative and detail-oriented UX/UI Designer with nearly a decade of experience designing human-centered digital products for both the public and private sectors.

I specialize in building scalable design systems, streamlining complex workflows, and leading cross-functional teams in fast-paced environments.

With a strong foundation in design thinking and a keen interest in emerging technologies, I bring both strategic and hands-on skills to every project.

Çankaya / ANKARA

## SKILLS

03

Figma is my go-to design tool for building scalable design systems, interactive prototypes, and clean user interfaces.

In addition to design, I'm passionate about no-code tools like Framer and Webflow, which allow me to bring ideas to life with smooth interactions and rapid iterations — without writing a single line of code.

I enjoy exploring how design and development converge in modern product creation.

04.2024-Currently
